It goes without saying that your friends are usually the first to discuss your personal business behind your back. Terry McMillan, Mama

Reader's Opinions

Ups and downs (mostly downs) in the life of this woman and her children. She lives her life too much through her kids, which is depressing. Also always looking for the perfect man. frustrating book

Terry captured my heart with this one, I can't even read it again because it makes me think of my grandma GOD rest her Soul who passed this year. It truly depicts the typical black family. I love it.
