Reader's Opinions

My friend recommended this to me after hearing my rave reviews on Trese. The first part of the book had me scratching in my head and wanting to bang the heads of the characters because... there were just too many of them! Some of them were kinda getting lost along the way but I eventually did love this book, especially the latter part....

My sister brought this home and I snuck a peak, and next thing I know I'm reading it. It is a good book, the illustration was well done and the story line is very good to. It is the Filipino Culture conveyed in a modern graphic novel. Very good book. :)
